FANTEC SQ-35U3e-6G

Back up your data on the FANTEC SQ-35U3e-6G with space for up to four SATA hard disks in one housing. All hard disks are displayed individually and can therefore be individually controlled, freely exchanged, replaced and expanded regardless of manufacturer or capacity. Thanks to the simple and quick installation with Plug & Play and the two SUPER SPEED USB 3.2 Gen 1 & eSATA data interfaces, the enclosure is ready for use in no time at all. Thanks to the flexible SUPER SPEED USB 3.2 Gen 1 and eSATA data interfaces, lightning-fast data transfers of up to 5 Gbit/s (USB 3.2 Gen 1) and 6 Gbit/s (eSATA) are possible thanks to SATA III, 6G and UASP support. The built-in 80mm fan can be controlled manually and continuously and thus optimally adjusted for the built-in hard disks. The energy-saving function switches the FANTEC SQ-35U3e-6G off automatically when the PC is shut down.
